

YOU BE THE JUDGE:

Have You Tried The Wood-Filler That's Turning The Industry Upside-Down?

THE WOODFILLER YOU USUALLY USE

- Often Shrinks, Sinks, Cracks or Falls Out
- **Wasteful** – Dries Out in the Tub
- **Cannot be Mixed** with Oil Based Tints or Stains
- Takes Stain Unevenly
- Not Appropriate for all Finishes
- Unpredictable for Custom Colors
- Not Freeze/Thaw Stable
- Contains Latex or Acrylic Properties

TIMBERMATE

- **Will Not** Shrink, Sink, Crack or Fall Out
- **No Waste** – Easily Reconstituted When Dry
- **Mixes Perfectly** With Oil or Latex Tints and Stains
- Takes Stain Like “Real” Wood
- Works With Any Finish
- Custom Colors can be Accurately Reproduced
- Freeze/Thaw Stable
- **Truly** Water Based
- Multiple Uses: Spot-, Trowel- and Grain-Filler
